About Me

I am an individual with a strong interest in technology and the creative industry, with experience in web development, event documentation, photography, and field event coordination. Accustomed to working collaboratively in teams, adapting to dynamic work environments, and being directly involved in various projects and large-scale events. Highly motivated to continuously learn, grow, and create meaningful work that brings value to both professional and creative environments.

Experience

- Game Developer Intern**
Teknoreka Inovasi Nusantara 2023
 - Developed a 2D educational game project for the Ministry of Education, Culture, Research, and Technology (Kemendikbud)
